Happy New Year 2000

I have begun to ride my motorbike since I was 18. Just ride, just fun. "Time with me means pleasure, isn't it? You are not alone." My motorbike said. The more times I rode, the bigger my friend party grew. And the more we took pictures... One day, I have heard about KUSASENRI '89 and its photo album. A meet a decade, a photo a decade. Simple but very stimulating 10 years. 10 years passed. The time has come around. Go for the album of the moment for our 10 years, To meet lots of riders who can share the feeling I had when I was 23.

**RIDER'S PARTY
LIVE LAND**

We have two parties, a party of
happy riders and a party with
our names of film riders. The goal
we are chasing is to achieve a
very close connection with each
rider by making those parties
gathered on one.
